

## Installation

1. You must have cwan previously downloaded and located directly into C:
2. The following library is also required: **MCR for Matlab R2015b (9.0) Win 64 bits**. You can download it for free from the MathWorks website:  
<https://www.mathworks.com/products/compiler/mcr.html>
3. After installation of this library, simply run the executable for CTM4DOC.
4. You can take a look at the examples given in the file  
“**CTM4DOC\_Examples.mat**”, which are discussed in the article,  
*J. Synchrotron Rad.*, **2016**, 23, 1264-1271
